ABOUT ME

I'm a final-year Computing and Automation student at the **Faculty of Technical Sciences**, University of Novi Sad. I'm currently seeking internship opportunities to improve my knowledge and gain experience.

EDUCATION

2021 - Present

Faculty of Technical
Sciences

Computing and Automation

In third year continued on **Applied Computer Sciences module**.

SKILLS

Technologies

- PostgreSQL
- MySQL
- Spring boot
- Git
- React
- React Native
- HTML, CSS

Languages

- SQL
- Java
- JavaScript

Additional

- Ability to read, write and communicate on English.
- Solid knowledge of MS Office programs (Excel, Word)
- Open to new challenges and enthusiastic about continuous learning in the IT industry.
- Basic knowledge of computer hardware and understanding of basic networking.

EXPERIENCE

Third year

- Developed a tourism web application, during third year of studies in a **team of 4**. Collaborated via **GitHub** for version control and team coordination.
- Participated in development of a simple web application in team of 2 using **Node JS**. Simple application where the idea was to gain hands on experience with **HTTP** protocol and communication between servers.
- Learned basics of computer networks and protocols by creating and configuring simple network in CISCO Packet Tracer.

Fourth year

- Contributed to building a tourism web application in a **team of 16**. Focused on effective teamwork, clean code principles, and regular **communication with end users to gather feedback** and to fully understand their needs. Used GitHub for collaboration.
- Participated in development of a social media web application in team of 3, using **Spring boot**. Focused on effective teamwork, backend part with **PostgreSQL** RDBMS, and implementation of **Spring security** for user authentication. Implemented simple mail server for sending emails to users.
